# Spring News 2010

**Welcome back...**I find myself chatting about golf with people more each day; the coming season is right around the dog-leg and people are getting excited!

**Need golf tournament/event entertainment...**As a golf professional and professional magician ([www.magicoftrevormoore.com](http://www.magicoftrevormoore.com)), I am able to provide your golf event with a dynamic set of entertainment options. Whether you are in need of a golf clinic, strolling cocktail entertainment, stage magic and comedy, or an emcee, I can cater a package to suit your needs.

**New for 2010...**I am constantly searching for new and innovative ways to help my students gain and achieve the success they desire. I am proud to say that as I write this newsletter, I am also eagerly packing and preparing for my training trip in Calgary with the Titleist Performance Institute. Upon successful completion of the pending exam, I will become a TPI Certified Golf Fitness Instructor (CGFI), and able to help students work through personal strength and flexibility limitations that are inhibiting their golf game. For more information on the program, please visit them online at [www.mytpi.com](http://www.mytpi.com).

**Writing...**I will once again be writing regular golf columns for the Medicine Hat News throughout the golf season, so if you have any news, notes, or suggestions that you would like to pass my way, please feel free to do so. I am always interested in new column topics and ideas.

**Group Lessons (Junior & Adult) Registration...**If you are looking to register in one of my 2010 group lesson programs, please visit me online at [www.advantagegolf.ca](http://www.advantagegolf.ca) and search through the various options available. Registration is as easy as emailing me to request the required registration form; be sure to act quickly, as some of the programs are already full!

Looking forward to another great golf season!

A handwritten signature in purple ink that reads 'Trevor Moore'.
